**NO SOCCER FOR TOM!**

**1** Read the text and decide which picture describes it best.

Tom is a very active person and he often goes out to the country to ride his bike on weekends. He sometimes goes with his friends, but he usually rides alone. Unfortunately, Tom has an accident almost every time he goes, so when his friends see him at school on Monday morning, he often has a pain in his back or in his leg or something similar. Then he plays soccer twice a week with his friends. He loves all kinds of sports.

This weekend Tom is not out in the country and he can't go out and ride his bike because he's in bed. He's got a headache, a sore throat, and he's feeling very tired. His mother says he's got the flu and she says he can't play soccer this week either. Tom never misses a game of soccer and he's not happy!
