Do you think that a person who dresses fashionably or buys expensive clothes is a better person than someone who wears second-hand clothes?

There are people who think that wearing designer clothes will make them more popular and interesting, but I disagree. I usually wear comfortable clothes and I do not spend lots of money on clothes. When I look at my friends who spend all their pocket money on new clothes I feel uncomfortable.

Some of my friends choose designer clothes simply because these clothes are “in” and not because they look good in them. I think we all need to feel comfortable and good in what we wear but we can do this without becoming fashion slaves.
