7 Read the following essay and write True (T) or False (F) for the statements below. (1 point each)

Do you think that a person who dresses fashionably or buys expensive clothes is a better person than someone who wears second-hand clothes?

There are people who think that wearing designer clothes will make them more popular and interesting, but I disagree. I usually wear comfortable clothes and I do not spend lots of money on clothes. When I look at my friends who spend all their pocket money on new clothes I feel uncomfortable.

Some of my friends chose designer clothes simply because these clothes are "in" and not because they look good in them. I think we all need to feel comfortable and good in what we wear but we can do this without becoming fashion slaves.

- T 1. The writer thinks wearing designer clothes doesn't make people more popular.
- \_\_\_\_\_ 2. The writer thinks buying expensive clothes makes a person better.
