Listening Strategies

(Unit 5, page 56; Use before Exercise D)

Predicting

Anticipating what a listening will be about can help you understand it better.

Practice. After you have listened to Part 1, work with a partner to brainstorm about possible answers to the questions from Exercise D. Write down your ideas in the chart below. Then listen to Part 2 and compare your predictions with what actually happened.

1. What changes occurred in Italy after the Greens made their decision? What is "The Nicholas Effect?"
2. How many people received one of Nicholas's organs? What effect did his gift have on their lives?
3. As a result of this incident, what are the Greens doing today?
