Emiliya Nikolaeva – Bulgaria

“Blue Skies for Bulgaria, Energy for Bulgaria, English Adventure, Challenges, Activate! are the books I have been using in my work. I like that the topics are very close to kids’ lives, making them eager to see what happens next. The great variety of ready to use additional materials, which enables applying different techniques in class, is another reason for choosing these courses. Last but not least is the professional graphic design.

The materials I use make teaching stimulating, focused and rewarding. The learner concentrates on using language as a set of functions, which is my main teaching goal. The books give a chance for my students to be able to get things done after being taught a lesson.”

Bring Energy to the classroom!

Teachers of teenagers say that learners fail to retain new language once they have been exposed to it in the classroom, particularly vocabulary items. **Energy** gives learners the tools and training they need to learn, remember and use new language with confidence. It is carefully put together to cut down on teacher-planning time and make learning English more memorable for students.

- No more surprises! The logically staged grammar syllabus and carefully controlled vocabulary syllabus ensures students do not have to cope with unexpected or unnecessary words or structures
- Use it or lose it! Memory Gyms and Writing Gyms allow for new language to be reused and fixed in the students’ brain
- Everything in one place. The Wordstore vocabulary notebook which accompanies the Students’ Book offers tips for improving memory, visual exercises to practise key items, and space to record new language
