**NO COPYING, SINGLE OR MULTIPLE,
OF VIDEO CASSETTES IS PERMITTED.**

The law allows for a reader to make a single copy of part of a book for purposes of private study. It does not allow the copying of entire books or the making of multiple copies of extracts.

Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with CLA or an associated licensing agency and allow / use photocopying strictly in accordance with their regulations. If a school wishes to have multiple copies of a part of a book in a self-access centre, then it must purchase the necessary number of printed books. There is no formal objection to schools physically cutting printed texts into parts and reassembling them in a way that seems appropriate, providing the books or parts of books are not then resold. It is not, however, a practice we would recommend.

In the case of audio recordings, it is permissible for a school to make a copy of an audio tape, keeping the original as a back-up. Only one copy may exist at any one time. A school may copy different parts of an original audio tape onto several cassettes, providing that no part of the original exists in more than one copy at any one time. Therefore, if a school wishes to have three copies of one part of an audio tape, it must have three originals.

All the information contained in this catalogue is correct at the time of going to press (September 2008) and is subject to change without prior notice.

New editions of titles where the content has been updated are distinguished by a new edition flash.

Where no CD-ROM specifications are given, please contact your local Pearson Longman office.
