Numbers and words

TEACHER'S NOTES:

Aim: to practise and consolidate key vocabulary; my life and numbers. This warmer is designed to be used in conjunction with unit 2.

Time: 40 minutes

Materials: copy of the worksheet for each student

- 1 Ask students to fill in the gaps using the words from the box. Elicit answers from the class.

Answers: a) sister b) accountant c) surname d) spell e) father f) best
g) number h) great i) engineer j) doctor k) email address

- 2 Students play a counting game. They work in pairs and take it in turns to choose a number in the grid and say it, then cross it out until all the numbers are crossed out. You could make this into a competition and make the first pair to finish the winner. Monitor as students talk to check on pronunciation. At the end of the activity ask students to call out some of the numbers, giving you an opportunity to correct any pronunciation.
